COVER LETTER

Hello! I am a frontend developer based in Kyiv. My experience includes:

Approach to Layout: Experience with various layout methods, adaptive and pixel-perfect design, as well as using the BEM approach for code organization.

Markup and Styling Languages: Proficiency in HTML5, CSS3, SASS/SCSS, and experience with CSS frameworks like Tailwind CSS and Bootstrap.

Frontend Technologies: Proficient in JavaScript and TypeScript, working with React using Redux/toolkit and React-Router.

API Interaction: Skillful in working with REST APIs using libraries such as Axios, Redux/AsyncThunk, and React Query.

Development Tools: Experience with project bundlers like Yarn, NPM, VITE, and Webpack.

Version Control: Proficient with Git and experienced in using GitHub.

Design: Familiarity with design tools such as Figma and Adobe Photoshop.

Learning Backend: Currently actively learning backend technologies, including Node.js, Express.js, database management (Sequelize, PostgreSQL), and testing using Postman.

I am pursuing a bachelor's degree in Kiev, specializing in 121. My professional approach, development skills, and commitment to self-improvement make me a promising candidate for your team. I'm excited to contribute to your project and work effectively within a team of developers.
